SUMMARY

Strategic HR Business Partner with 9+ years of experience across People Analytics, Organization Development, Talent Management, and Culture Transformation. Builds data-driven frameworks — culture diagnostics, predictive retention models, competency-based succession tools — that translate into practical succession, performance, and engagement outcomes.

SKILLS

- Stakeholder Management
- Culture & Engagement
- People Analytics
- Talent Management
- Employee Relations
- AI Adoption Enablement

WORK EXPERIENCE

Assistant Manager - Global HRBP | Prodapt Solutions Pvt Ltd - Chennai

11/2024 - Current

- Identified attrition risk in fresher grades where inconsistent auto-promotion was causing pyramid stagnation and below-market salary positioning.
- Built and implemented an ASE-to-SE auto-promotion framework impacting 100+ associates, and proposed fast-track promotions for Dream and Non-Dream category hires to align them with Super Dream hires during the appraisal cycle — stabilising the talent pyramid.
- Designed and led Prodapt Pulse (Project Jellyfish), an enterprise-wide organisational diagnostic — built the questionnaire, engaged 400+ participants globally, and translated feedback into a leadership presentation that directly informed culture, engagement, and effectiveness decisions.
- Drove enterprise-wide AI tool adoption for all associates, replacing a homegrown tool, as a direct outcome of Pulse findings.
- Designed and implemented a hybrid workplace policy based on diagnostic insights.
- Institutionalised a continuous feedback system to replace ad-hoc feedback cycles.
- Established a structured leadership communication cadence at account level, keeping bottom-of-pyramid associates informed and aligned to account and organisational developments.
- Ran structured retention interventions — business connects, skip-level connects, and employee connects — to proactively identify flight risks across the account.
- Contributed to 29% of overall retention efforts, closing flight risks through monetary and non-monetary interventions and bringing down attrition by 20 percentage points.

- Designed and deployed a Power BI-based attrition dashboard with org-level and leadership-ready views, giving stakeholders real-time visibility into workforce risk.
- Designed an HR flight-risk simulator using Claude (Anthropic AI), achieving up to 54% predictive relevance in identifying at-risk employees.
- Automated QBR and governance deck preparation using Claude, MS Flow, and Python (VS Code) — enabling real-time data updates and faster presentation readiness.

Team Member - HR - Org Design & Development Cell | NLC (India) Limited -

Neyveli

07/2022 - 08/2024

- Facilitated PCMM audits by coordinating PAN-India artefact collection and leadership documentation, ensuring readiness and process maturity.
- Supported competency framework development, contributing to capability mapping and behavioural definition across roles.
- Executed Assessment & Development Centres (ACDC) for 3,500+ executives PAN India, enabling leadership identification, IDPs, and succession planning across business functions.
- Delivered predictive analytics insights on attrition, recruitment funnel trends, and employee experience metrics to guide leadership actions.
- Executed organisation-wide engagement designs, including R&R frameworks, innovation-focused Ideation Melathon initiatives, and large-scale public events involving employees' families, high level government authorities and external audiences to strengthen organisational culture and values.

Associate Manager - HR BP (India & US Region) | HCL Technology - Chennai

10/2021 - 05/2022

- Partnered with India & US delivery leadership across the Infrastructure vertical to strengthen talent stability, manager capability, and workforce effectiveness.
- Redesigned the onboarding experience to improve new-hire readiness, accelerate role assimilation, and enhance early-stage engagement.
- Implemented proactive and reactive retention frameworks that helped stabilise BU attrition and address critical-skill flight risks.
- Strengthened performance management through calibration support, refined goal-setting standards, and consistent evaluation criteria.
- Enabled digital performance journals to support continuous feedback, improve documentation quality, and enhance manager-employee performance conversations.
- Ensured strong governance by reinforcing POSH compliance, improving grievance-handling mechanisms, and advising stakeholders on people-related decisions.

Associate Professional - HR (India & ANZ Region) | DXC Technology - Chennai

05/2019 - 04/2021

- Collaborated with leadership and stakeholders across ANZ and India regions to manage HR operations, policy implementation, leave administration, and performance processes.
- Served as a key liaison between managers and employees, resolving grievances, interpreting policies, and ensuring compliance with organisational standards.
- Partnered with business leaders to address conflicts proactively, enhancing employee relations and building trust.
- Extracted and transformed raw data from multiple systems to generate meaningful HR reports for decision-making.
- Recommended process improvements by identifying operational constraints and proposing data-backed solutions.

- Facilitated end-to-end HR administrative processes to support the employee lifecycle and improve service delivery.
- Contributed to system enhancements as part of the operational excellence team, improving employee experience and process efficiency.
- Built and maintained a comprehensive HR knowledge base to promote employee self-service and reduce dependency on HR operations.

Executive - HR & IR | Multivista Global Pvt Ltd - Chennai

05/2018 - 04/2019

- Collaborated with leadership, contractors, and union representatives to support HR operations, workforce stability, and statutory compliance.
- Managed end-to-end employee lifecycle processes including new hires, transfers, separations, and documentation accuracy.
- Performed overtime, leave, and attendance calculations to ensure accurate payroll processing.
- Supported investigations related to workplace issues including discrimination and harassment, ensuring timely resolution and compliance.
- Developed and coordinated employee recognition initiatives to drive motivation and engagement.
- Pre-screened resumes and partnered with hiring managers to streamline recruitment workflows.
- Managed contract labour operations, ensuring manpower supply continuity and adherence to labour regulations.
- Participated in union meetings to address labour concerns and maintain industrial harmony.
- Acted as Management Representative for ISO and SEDEX audits, ensuring compliance and timely closure of non-conformities.
- Assisted in internal and external audits, reporting findings and implementing corrective action plans.

Executive - HR | Trivitron Healthcare Pvt Ltd - Chennai

07/2017 - 05/2018

- Handled end-to-end onboarding processes, ensuring smooth documentation, compliance and transition for newly hired employees.
- Updated and maintained HRIS records, including employee data, benefit changes and personnel information.
- Monitored and supported organisation-wide employee recognition programs to promote engagement and motivation.
- Conducted safety and health practice checks to ensure workplace safety and compliance with regulations.
- Evaluated candidates through rigorous resume screening and competency-based phone interviews to shortlist strong talent.
- Stayed updated with evolving regulatory standards and ensured adherence to HR policies and statutory requirements.
- Prepared documentation, reports and evidence for upcoming audits and inspections, ensuring full compliance readiness.
